

AKASSH M

✉ m.akassh07@gmail.com ☎ 9789744339 📍 Chennai,India 🌐 AKASSH M 🔄 AKASSH-M 📄 AKASSH-M

PROFESSIONAL SUMMARY

B.Tech student in Artificial Intelligence & Data Science with a strong foundation in problem solving, software development, and artificial intelligence. Ranked among the top 0.42% of competitive programmers globally, with experience developing practical solutions in AI/ML, intelligent systems, and data processing across real-world applications and technical projects in diverse domains and environments.

EDUCATION

Bachelor of Technology (B. Tech) Artificial Intelligence & Data Science 🌐, Chennai Institute Of Technology 2024 – 2028
Cumulative Grade Point Average (CGPA) - 8.35 / 10

INTERNSHIP EXPERIENCE

Google AI-ML virtual internship APR – JUN 2025
Structured virtual internship in Artificial Intelligence and Machine Learning, developing conceptual knowledge of Python, TensorFlow, Object Detection, Image Classification, and Product Image Search, with exposure to practical computer vision applications.

Edunet-shell AI-ML internship NOV – 2025
Gained hands-on experience in AI/ML concepts, with a strong focus on Convolutional Neural Networks (CNNs). Developed a plant disease detection project aligned with the sustainability theme, applying image-based ML techniques to real-world agricultural challenges

PROJECTS

Synapse, Enterprise Knowledge Intelligence & GraphRAG with Multi-Agent orchestration
Python, FastAPI, Neo4j, GraphRAG, OpenAI Agents SDK, MCP, SQLModel, SQLite, Docker

- Built enterprise Knowledge Graph integrating documents, GitHub, and email with provenance-aware entity resolution across teams.
- Developed hybrid GraphRAG combining graph traversal, vector search, and community context for grounded LLM reasoning at scale.
- Built AgentSuite for knowledge-driven agent discovery, YAML specifications, and multi-step enterprise workflow execution securely.
- Implemented agent guardrails with policy enforcement, approvals, credential isolation, durable execution, and security auditing.

Data Processing and Analysis System | MOSPI, Statistical Pipeline for Transforming Raw Survey Data into Analytical Reports
React, TypeScript, Tailwind CSS, FastAPI - Python, PostgreSQL / Supabase (Prod), Cloudflare R2

- Developed an automated pipeline for data ingestion, profiling, semantic mapping, and quality assessment across diverse datasets.
- Implemented modular cleaning with outlier detection, rule-based validation, and missing-value imputation for data consistency.
- Applied data weighting techniques to account for varying importance and influence across records during downstream processing.
- Generated comprehensive data quality reports capturing processing results, validation outcomes, and key transformation metrics.

Agentix 🌐

React & Vite, Tailwind CSS, FastAPI - python, PostgreSQL, LangGraph workflow, LSTM

- Designed a robust multi-agent hospital operations system using LangGraph for intelligent workflow orchestration and automation.
- Engineered inter-agent communication loops enabling specialized agents to monitor, predict, decide, govern, and execute tasks.
- Developed and trained an LSTM forecasting model to predict upcoming hospital events and operational requirements.
- Integrated predictive insights with agent workflows to support proactive decision-making and automated hospital administration.

SKILLS

Programming Languages: Java, C++, Python, C, JavaScript | **Frontend:** HTML, CSS, React, Vite, Tailwind CSS | **Backend:** FastAPI

Libraries & AI/ML: LangGraph, LangChain, TensorFlow, Pandas, NumPy, Hugging Face, CNN, LSTM, Gen AI, Agentic AI

CS Core: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design

Database: MySQL, MongoDB, PostgreSQL - Supabase, Neo4j (Graph Database)

Tools & Deployment: Git, GitHub, Docker, GitHub Actions, Postman, Linux, Vercel, Render, Netlify

COMPETITIVE PROGRAMMING

Leetcode : (AKASSH_M) 🌐 Guardian, Top 0.4%, 1500+ problems,Max rating 2344, best rank: 189, 100+ contest (25+All killed), 31 Badges

Codechef : (colony_aura_35) 🌐, Div 2, Three Stars, Solved 200+ sums,current Rating 1636, Max rating 1624, best rank : 179, 25 contest

ACHIEVEMENTS

Winner at H@CIT Code-a-thon 2026 among 5,000+ participants ,100+ finalist and Rank holder at Code-a-thon 2025 (Round One – Rank 1)

Runner up at Statathon 2025-26 by Ministry of Statistics and Program Implementation 🌐, Government of India

MumbaiHacks 2025 by HCLtech - 2025 finalist || IIT Delhi Handloom Hackathon 2025 by Ministry of Textiles 🌐 – finalist

CERTIFICATES

Applied Data Science Lab Issued by World Quant University

NPTEL : Introduction to IoT, Data Analytics with Python

NETACAD CISCO : CCNA(SRWE), Introduction to Data Science, Introduction to IoT, Introduction to Cybersecurity

C, C++, PYTHON, JAVA Issued by COGTIS TECHNOLOGIES PVT LTD
